

## THE MENU

### PACKAGE #1 - "PRE-STUDY"

A pre-study is just that; the research phase leading to recommendations on detected issues, how to conduct the project and estimated time and cost, given certain desired outcomes.

A pre-study may be used together with other consultancy firms to actually conduct the project, should the client not wish to go forward with White Raven. The pre-study may also come to the conclusion that a more niche, specialty firm may be needed to actually conduct the project.

A project including the pre-study; here, a client who chose only package #1 may upgrade to package #2.

Phases #1-4 explain the general procedure of a project with White Raven.

### PACKAGE #2 - STAND ALONE, SHORT PROJECTS

Short projects may entail specific research, report or modeling work, and will usually last 1-4 weeks.

### PACKAGE #3 - STAND ALONE, EDUCATIONAL SESSIONS

From one day sessions, conference based workshops to a full educational package of one semester.

Such educational sessions will accommodate the specific nature of the client's business.

### PACKAGE #4 - LECTURES, SPEECHES AND MORNING BREAKFAST GATHERINGS

As the title suggests, this would include given single or multiple speeches at conferences, company events, as well as holding tailored made "breakfast meetings" and similar events.
